

ALL ROUNDERS™

Introducing the ALL NEW All Rounders™

The All Rounders™ are a new, highly versatile and efficient road delineator. The product is simple and suited to a variety of applications. Utilising a solar-powered LED, All Rounders™ reduce driver fatigue and enhance road and mine site safety.

The defining feature of the All Rounders™ is their ability to shine in all directions. Four directional panels illuminate each side of the light, with the option to block out panels and focus directions.

Directional Lighting

360°
Four-panel, all round lighting.

BIDIRECTIONAL
Two-panel, dual side lighting.

SINGULAR LIGHT
One-panel, single direction lighting.

Colours

Red

Blue

Clear

Green

Amber

All Rounders™ come in five colours to suit your own site needs.

Visibility

800m

The All Rounders™ are visible from 800 metres away. Additionally, they feature a high-visibility reflective tape.

Power

Requiring no external power source, the solar-powered LEDs will last for 72 hours with a complete charge.

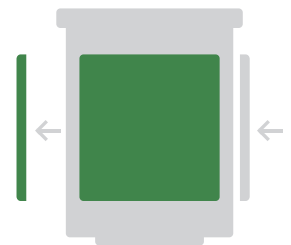

Operation Time 72hrs

Battery Life >1-2 years

Module Life >3 years

90 blinks/min

Versatility

Changing panels on the All Rounders™ is quick and easy to do. Either swap for a different colour or block particular sides for directional lighting.

All Rounders™ can be ordered in **Flashing** mode or **Non-flashing** mode.
